Organisation *

Organisation Name

For organisations: please use the organisation's full name. Make sure you provide the same name that is listed in official documentation such as that with the ABR, ACNC or ATO.

Department/Branch/Faculty

Use this field only if relevant.

Organisation primary address

Address

Project lead contact *

Title First Name Last Name

This is the person we will correspond with about this grant.

Position held in organisation *

e.g., Manager, Board Member or Fundraising Coordinator.

Phone number *

Must be an Australian phone number.

Email address *

This is the address we will use to correspond with you about this grant.

Proposal Details

* indicates a required field

Project title:

Research Partnership Support Enquiry

Form Preview

Provide a name for your project/program/initiative. Your title should be short but descriptive

Start Date

Must be a date.

End Date

Must be a date.

Total Project Cost

Must be a dollar amount.

What is the total budgeted cost (dollars) of your project?

Total Amount Requested

Must be a dollar amount.

What is the total financial support you are requesting in this application? If you are not requesting financial support please write "0".

Project description: please provide a brief description of the research project you are seeking support for:

Research Team: please provide details on the lead researcher's area of expertise/background. Please also list other institutions/organisations involved and associated researchers.

Alignment and Fit

Health and Wellbeing Queensland may consider providing support to research projects that will benefit one or more of the priority areas and priority populations listed below.

Priority area(s)

- | | |
|--|--|
| <input type="checkbox"/> Nutrition | <input type="checkbox"/> Wellbeing |
| <input type="checkbox"/> Physical activity | <input type="checkbox"/> Health equity |
| <input type="checkbox"/> Sleep | |

You may tick more than one. HWQId will only consider supporting projects that meet at least one priority area.

Priority population(s)

- | | |
|--|--|
| <input type="checkbox"/> First Nations peoples | <input type="checkbox"/> People living in rural and remote regions |
|--|--|

- Infants, children, young people
 People experiencing disadvantage;
living with disability; or from culturally and
linguistically diverse backgrounds, including
recent migrants and refugees
- General population
 Other:

You may choose more than one.

Research projects will be expected to demonstrate alignment to HWQId's strategy, including reference to the primary and secondary parameters below.

Description of primary parameters:

- **Prevention:** An approach that focuses on protecting, maintaining, and promoting the health and wellbeing through prevention, rather than diagnosis and treatment, of disease.
- **Public and population health:** Research that focuses on the health and wellbeing of communities and social groups, rather than on individuals.
- **Systems-based:** The HWQId approach is systems-based, requiring complexity-aware methods and a perspective involving a focus on the whole picture and not just a single element, awareness of the wider context, an appreciation for interactions among different components, and transdisciplinary thinking.
- **Equity:** A commitment to equity and for research to be a tool for advancing equity. It recognises that research will involve a diverse range of population subgroups and needs to be adaptable to local cultural and social contexts.
- **Theory-informed:** A theory-driven approach is required to demonstrate how research is understood to contribute to systems change and population outcomes, and to ensure that this aligns with the HWQId's strategy.
- **Impact-orientated:** Approaches that demonstrate strategies and pathways for achieving and capturing impact across all stages of research design, conduct, dissemination and translation.

Description of secondary parameters:

- **Social determinants of health:** An approach that recognises that the conditions in which people live and wider social and economic systems, norms and policies influence health.
- **Implementation science:** Real world research that contributes to understandings of how to promote and implement the uptake of evidence into policy and practice.
- **Participatory:** Approaches that recognise the importance of involving end users across the research life cycle, from design through to delivery and reporting.
- **Multidisciplinary:** An approach that brings together the varied perspectives of different academic disciplines and sectors (from across policy, practice and industry).
- **Settings/place based:** Approaches that are collaboratively designed and delivered in place, developed with and targeted to the needs of the place and people within it.
- **Intersectionality:** An approach that recognises the complexity of social groups' characteristics, which intersect and lead to cumulative disadvantage.

Primary Parameters *

- Prevention
 Public and population health
 Systems-based
- Equity
 Theory-informed
 Impact-oriented

Please choose all parameters that apply to your project.

Secondary parameters *

- Social determinants of health
 Multidisciplinary

- Intersectionality

Support requested

* indicates a required field

Are you seeking support for a grant proposal to another funding agency (e.g. NHMRC, MRFF, ARC, etc)? *

- Yes
- No

What funding agency are you submitting a grant proposal to?

e.g. NHMRC, MRFF, ARC, Ian Potter Foundation, etc.

Submission date to other funding agency.

Must be a date.

Announcement date:

Must be a date.

When will you find out the outcome of the grant submission?

Please provide the Grant Application ID of the proposal you are submitting to the other funding agency.

What support is being requested of HWQId? *

- Financial support
- In-kind support
- Letter of support
- Advisory
- Committee representation
- Named CI
- Named AI
- HWQId Brand

At least 1 choice must be selected.

You may choose more than one if required. If the type of support you are requesting is not listed here, please provide details in the question below.

When do you need evidence of support from HWQId by? *

Must be a date.

Please note that generally we would expect a minimum of 2 weeks notice for a Letter of Support to be provided by HWQId.

Please provide details of the support you are requesting, and justification for the request: *
